

Ikaria rectangular

IKARIA RECTANGULAR

Product number: Ikaria Rechteck

The modern rectangular IKARIA bathtub stands out with one wide and one narrow tub rim. The glossy sanitary acrylic feels beautifully smooth on the skin. The tub is available in three sizes. The smaller version has one comfortable sloping back support. The two larger versions both have two back supports so two people can bathe together easily. With its rounded square plug positioned in the centre of the tub, the drain is a nice touch. Why not add a HOESCH whirl system or glass panelling in the colour of your choice to the fitted bath?
