

Putman oval

PUTMAN OVAL

Product number: Putman Oval

'Lady of fashion' in French design is famous for its form which often combines geometrical clearness and contrastive details in one object. For Andrée Putman the bathroom is a space of freedom, regeneration and joy of life. Soft round shapes of the apron look like delicate waves and give the bathtub creative lightness. Its interior is spacious and the siphon placed in the middle of the bathtub allows for comfortable bathing for two persons. The bathtub is also available in freestanding version with exterior panelling.
