

Sola rectangular

SOLA RECTANGULAR

Product number: Sola Rechteck

Extremely practical and extraordinarily aesthetic - the new SOLA bathtub not only satisfies specific customer requirements, but it also meets extremely high design standards. This means: A rectangular, integrated drain in the slim rim of the bathtub offers unprecedented freedom when it comes to bathroom design. At the same time, the drain acts as a visual highlight and blends harmoniously into the discreetly rounded shape of the bathtub. The new SOLA shower tray is made of high-quality Solique mineral cast. This can be seen and experienced with the glossy smooth surface finish. Not to mention easy cleaning and high durability. The extremely flat 30 mm shower tray can also be accessibly installed. • Exceptional aesthetics thanks to the design on the shorter side • Outstanding material properties of Solique • 15 mm depth, 30 mm material thickness • Can also be accessibly installed
