

Steam generator SteamBox 330

STEAMBOX

Product number: 68140

While everyone wants to enjoy relaxing in silky smooth steam, the desires and needs of steam cabin enthusiasts are often very different. SteamBox by HOESCH is the customised solution. With its aluminum casing, the steam generator with is not just easy on the eye, it is also state of the art. The plug-in SteamBox, with its 3-litre steam generator (3.3 kW), steam nozzle and steam hose, is ideal for anyone just getting started. You can transform your existing shower cabin into a fully fledged steam cabin by simply adding a top made of transparent acrylic without excessive installation work or structural changes. This is made even easier with the SteamSet, which comes with the steam generator as well as a suitable shower enclosure and matching domed top. We can supply the shower enclosure with or without a drilled hole for the steam nozzle, giving you the option of a wall-mounted or recessed installation. Basic equipment: - Plug-in, splash-proof version - Aluminum housing with stainless steel tank and integrated control panel incl. functions/display: Device on/off, steam on/off, electronic water level indicator - Including steam nozzle, steam hose and fixings - Rated voltage 230 V, 50/60 Hz
