

shower cabin AlarisPro

SHOWER CABIN ALARISPRO

Product number: AlarisPro Eck

The ALARIS PRO shower enclosure extends the ALARIS series with another flexible variant for the bathroom. A fixed two-metre high and 70 to 140 cm wide glass panel is supplemented here by a small movable glass panel, which thus provides additional splash protection. The ALARIS PRO shower enclosure can be mounted on both shower trays and tiled floors and is available with either shiny silver or black profiles. Functionality and comfort - these are the main features of the Alaris series.

Typ	AlarisPro Eck
Height	2000
Intrasat weight	31.0
EAN code	4044559325784
Glass thickness	6
