

Glas panel hexagonal

GLAS PANEL HEXAGONAL

Product number: Glasverkleidung Sechseck

Set colour accents! With this additional option, you can harmoniously round off your bathroom colour concept: with a mirror-smooth glass cladding for your bathtub. Choose your desired colour from the earth tones: Black, slate grey, telegrey, stone grey or white. Costly walling and re-walling of the baths is a thing of the past. The bathtub base frame is completely pre-assembled and the individual panes can be attached quickly, easily and securely using a magnetic system. These claddings are ideal for whirlpool tubs, as only the glass panel needs to be removed for maintenance or repairs and the whirlpool system is easily accessible.

Typ	Glasverkleidung Sechseck
Height	640
Intrasat weight	0.0
EAN code	4044559081574
Glass thickness	8
