LABRILLANTE CORNER

Product number: LaBrillante Ecke

“La Brillante” – a true all-rounder among mineral cast bathtubs. The new “La Brillante” bathtub is a true all-rounder. This mineral cast tub impresses not only with its clear, minimalist design, but also with an innovative feature that allows faucets to be installed directly in the integrated faucet shelf—available in the wall-mounted version as well as left- or right-corner variants. This design not only saves space but also creates a harmonious, aesthetically pleasing overall look. The delicate “La Brillante” is made from high-quality Solique mineral cast, featuring an exceptionally smooth, non-porous surface. With a central drain and a generous size of 1800 x 800 mm, the bathtub offers ample space for a relaxing bathing experience.
